Kits in Pure wool from Brigantia Needlework

What is so unique about their kits?

Their printed canvas

All their kits are produced with **Zweigart** canvas, which is widely acknowledged to be the finest quality available, and are hand printed in colour. their 5 hole canvases are accurate to the stitch meaning that no guesswork is involved and the finished tapestry matches the design exactly. Uniquely this is also true for their seven hole canvases and is not available from any other manufacturer. Their 10 hole canvases are also hand printed so that they fit the canvas as accurately as possible.

Their exclusive pure wool yarn

A further unique feature of their products is our premium quality pure wool Tapestry yarns. They are spun in Yorkshire from the finest whole fleece with a long staple, high lustre and pure white base. These qualities give a smooth, glossy yarn with clear colours, ideal for tapestry. The yarn is then dyed, treated with conditioners and gently dried in a flow of warm air to produce a full and soft finish.
