

## New book: Di van Niekerk's Roses in silk and organza ribbon

### About this book

Delicate and beautiful, the rose has been a symbol for love since ancient times and if you love roses, then this is just the

book for you.

This book teaches more than 60 brand new techniques on a specially designed rose sampler.

The beautiful silk roses and organza leaves will appeal to silk ribbon fans, crazy quilters, fibre artists, card makers and dress designers alike and are suitable for every occasion: adorning a hat, knitted bag, crochet scarf, beaded necklace, the lid of a jewellery box or that most special outfit of all — your wedding dress.

Techniques include 16 different roses blooming amongst the latticework of rosebuds, leaves and stems. Learn how to make rose petals and rose hips, sepals, stems and leaves, spent roses and stamens, birds, a bird's nest, butterflies, bows and wisteria. There is something for every crafter eager to learn how to create with silk and organza ribbon.

## **New Ottlite**

### **Battery Task Lamp**

#### Portable Performance

Perfect for the workbench, crafts or computer work, the rechargeable OttLite Battery Task Lamp easily moves from place to place so you always have great lighting. OttLite provides a healthier way to see by delivering the right mix of brightness and contrast. You'll see fine print and details with ease under this unique low heat, low glare illumination that helps reduce eyestrain.

With its small base footprint, the unique fold-up design features a handle and easily fits in tight spaces. Shade opens and extends 180° vertically to illuminate larger areas. The rechargeable battery provides up to 3 hours of battery use or use with the included AC adaptor.
